ENCEE

NANO

In-house Disinfectant Generator to Fight Against COVID-19

Reduces the cost of
disinfection

Eliminates the need to call
disinfecting professionals

Makes it more
convenient and easy

Makes disinfection
more accessible

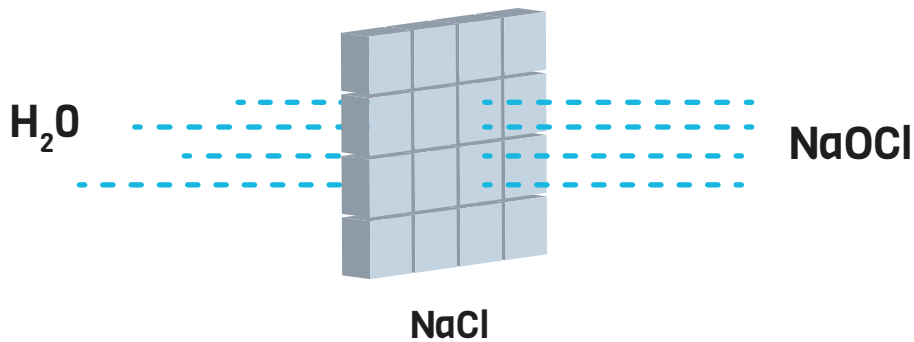

ENCEE Chlor Nano is a domestic disinfectant generator through which you can produce your own hypochlorite solution and decontaminate your home instantly.

Common salt and water are the only raw materials you'll need to produce the disinfectant solution in 8 hours.

Key Reaction that generates the Disinfectant:

Working Principle:

When water and common salt react with electricity, it produces 'Hypochlorite Solution', which is a strong disinfectant. Further water can be added to dilute it.

According to **WHO** and **UNICEF**, 0.5% of the hypo solution acts as a strong disinfectant to kill viruses and bacteria.

Benefits:

- Generate your **own disinfectant solution** in 8 hours
- It is a **simple and convenient solution**
- Eliminate the need for professional disinfection services
- Cost-effective and easily available
- It can also be used as a sanitizer and for all household disinfection purposes like cleaning clothes, vegetables, fruits, and surfaces

Applications:

Vegetables / Fruits Cleaning

Hand Wash

Drinking Water

Clothes Washing

Surface Cleaning

Meat Washing

- ENCEE Chlor Nano provides complete **peace of mind** in washing vegetables, fruits, meat, handling groceries, floor sanitation, clothes disinfection, surface sanitation & water disinfection

Who is this for:

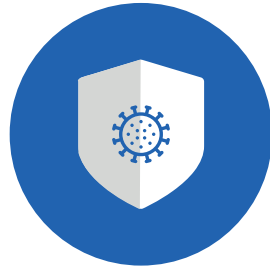

Flats and Apartments

Gated Communities

Households
