ENCEE

ULTRA

An Ultra-Violet In-Duct Airborne Disinfection to **Fight Against** **C** **VID-19**

Save energy costs
and improve
indoor air quality

Removes odor from the
recirculated or outside air

High valve MERV filter
reduces time and
resources for cleaning

Wide temperature range to kill
pathogens effectively

ENCEE Ultra is a purification system that effectively inactivates and kills airborne pathogens and microorganisms such as viruses and bacteria using UV germicidal irradiation and reduces indoor pollutants to level zero.

Product Specifications:

- Customizable Temperature Adjustment - **8°C to 55°C**
- A built-in **UV radiometer** shows a real-time UV dose and germ-kill rate.
- **Parallel lamp** positioning to give maximum efficiency and high kill rate.
- The system is sized based on the extensive computation flow dynamics and UV Radiation profiling data.

Who is it for:

Hospitals

Office Complexes

Factories

Pharmaceutical Industries

Markets

Shopping Malls

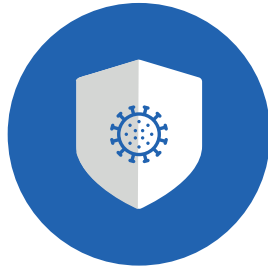

Educational Institutions

Airports/Railway Stations

Cinema Halls
